

Argus three-plane architecture

CONTROL PLANE

research judgment · what to run, whether it is done

Manager

front door · vertical
select · stage authority

Planner (L4)

forward scheduling
task DAG · backlog

LifeSupervisor

7×24 mission loop
budget · drain

dispatch ▼

▲ read-back

EXECUTION PLANE

one mission · real tools, providers, budgets

SkillLoop

match / distill skill
build prompt

Engineer (L1)

round of real work
bounded session

Reviewer (L2)

structured verdict
done / continue / blocked

Run gateway

codex / claude / copilot
call-id · quota · price

emit ▼

▲ read-back

EVIDENCE PLANE

measurement integrity · append-only, auditable

Event tape

events.jsonl
112 typed events

Usage ledger

tokens · premium
cost · budget

Secret guard

credential redaction
pre-persist

Provenance

artifact SHA-256
project wiki

Judgment stays in the control and execution planes; the evidence plane records but never decides.
